## California Proposition 65 Declaration

We hereby declare that our products do not contain chemicals known by the State of California which would cause cancer or reproductive harm.

Demonstrating compliance can be a daunting task for manufacturers and retailers selling their products into California.

With more than 1008 listed chemicals of concern in the Proposition 65 List of Chemicals dated January 3, 2020 and frequent changes to the list, and varying thresholds by product and substance, manufacturers need expertise and precision testing to meet Prop 65 requirements and avoid potential fees and litigation.

Polynova Nissen policy is to fully comply with the California's Proposition 65 and to work closely with our customers and suppliers.

The purpose of the above information is to ensure safe use of our products.

The above declaration is given in good faith, to the best of our knowledge and available information. The validity of this declaration is one year from the issue date as shown.
