

Easily decorate or display your signature cakes, cupcakes and desserts with our revolving plastic cake stand with non-slip base! Featuring stainless steel ball bearings for an extremely smooth, level rotation, this stand allows you to spin your cake so you can access all sides and angles for fast, simple icing and decorating. Ideal for bakeries, cafes, and more, this stand sits 3" high so you can add latticed piping or icing flowers comfortably.

Made of durable, lightweight, food-grade plastic, this stand is built to support multi-tier cakes of various sizes and is the perfect cake decorating tool for beginners and students in culinary schools. Not only does it boast a non-slip base to ensure optimum sturdiness, but the base and platform also separate for easy hand washing. Improve production time in your bakery or gourmet cake shop by quickly decorating cakes with this revolving stand!

Decorating Turntable

- Food-grade plastic
